**Subject:** Canterbury District Local Plan

Dear Dr Jackson

I refer to your letter to the Inspector dated 24 April 2016. The Inspector sought the views of the Council on the letter before considering his reply and was also putting in train the next stage of his examination. As you will be aware, further hearing sessions have been programmed. Amongst the questions he has set out is one relating to the Land South of Ridgeway. Further written statements can be submitted in relation to that (in accordance with the content and timescale prescribed in the Guidance Notes) and he has already invited the Grasmere Village Residents' Association to attend the hearing session on Tuesday 19 July 2016. The Inspector will take account of all duly made written representations and further statements in reaching his conclusions on the plan and the hearings will provide the opportunity for him to explore particular issues.

I hope that that this clarifies the position for you.

Regards  
Angela Furlong

Programme Officer
