Dear Mr D Jeffery,

Canterbury District Local Plan - Stage 2 Examination

On 25 May 2016 the Office for National Statistics published 2014-based sub national population projections, including those for Canterbury <http://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationprojections/bulletins/subnationalpopulationprojectionsforengland/2014basedprojections>. The Inspector asked the Council for a table setting out a comparison with previous projections and a commentary on any implications for the Local Plan. The response was included with a letter of 14 June 2016 <https://www.canterbury.gov.uk/planning/local-plan/emerging-local-plan/examination-documents/> CDLP 16.29.39. Subsequently, on 12 July 2016 the Department for Communities and Local Government has published 2014-based sub national household projections based on the earlier population projections <https://www.gov.uk/government/statistical-data-sets/live-tables-on-household-projections>

The Inspector invites comments on any implications these projections may have for the Local Plan. These should be submitted to me by Friday 19 August 2016. He is also inviting the Council to comment on the household projections within the same timeframe. In responding please indicate whether, if the Inspector decides to hold a further hearing into these matters, you would wish him to give consideration to you being heard.

Angela Furlong

Programme officer
