Thank you for your consultation on the above referenced planning application.

Kent County Council as Lead Local Flood Authority have the following comments:

We have reviewed the Surface Water Drainage Design Report, dated 12th December 2018 and drawing numbers 857401 (Drainage Details), 857/402 (Type 2 Manhole Details), 857/403 (Permeable Paving Details).

We are satisfied with the information provided and have no objection to the discharge of condition 3.

This response has been provided using the best knowledge and information submitted as part of the planning application at the time of responding and is reliant on the accuracy of that information.

Yours faithfully,
