Subject: Response to Consultation on the draft Canterbury District Local Plan To 2040

Dear Sir / Madam

Thank you for providing us with the opportunity to comment on the draft Canterbury District Local Plan.

The East Kent Health and Care Partnership (HCP) is a collaborative framework that brings together local health services, social care providers, and other community or public services to improve and integrate care delivery in East Kent. We aim to ensure that health and social care services are coordinated, deliver better patient outcomes, more personalised care, and increased efficiency.

The East Kent HCP welcomes the opportunity to be involved in the district plan and are keen to work closely with district council representatives in our area to develop joined-up care and support for our communities. Therefore, please find attached the East Kent HCP's response to the draft Canterbury District Local Plan.

Please could I ask you to confirm receipt of this email and its attachments because my outlook account is advising me that the consultations@canterbury.gov.uk email address is no longer valid.

Many thanks

Yours sincerely

Simon Brooks-Sykes

ICB Deputy Director for Strategic Estates and Sustainability
