- Your first name John
- Your last name Walker
- Your email [REDACTED]
- Your message Hi I have lived in Whitstable since [REDACTED] and have found it a fairly pleasant place to live. However in the last 10 years or so there has been a massive increase in what appears to be low quality and unnecessary housing which has now made this whole area a far from pleasant place to reside. What I would like to know is what whoever is in charge of this shambles of a planning policy are proposing to do about the infrastructure, health care systems, noise and air pollution, water supplies, sewage treatment and all the other issues associated with an over populated region. Looking forward to your comments John Walker
