**[CONSULTATIONS] Draft Local Plan - Save The Blean**

---

Penny Entwistle [REDACTED]

7 April 2024 at 12:01

To: "consultations@canterbury.gov.uk" &lt;consultations@canterbury.gov.uk&gt;

I refer to the Development of land North of Canterbury between Blean and Tyler Hill

This is very short sighted. To build on greenfield land and farmland. We do need farmers to keep producing food for our country if you build on this you will lose valuable agricultural space. Why not to to the brownfield sites to build on?

The road through Tyler Hill is already a bottle neck as is the road through Blean and Rough Common, these villages should not be changed by this ridiculous plan to build 2,000 homes in this RURAL area which wishes to remain rural.

Pressure on our water and drainage - more sewerage to be pumped into our seas?

To plan to destroy the Crab and Winkle way which is used by many to get to and from Canterbury without getting in a car is beyond reasonable thinking. Preserve our History.

Complete destruction of this area by this thoughtless, ugly, greedy, unnecessary plan. Can the city council not see with the already overloading of our area of Kent - Faversham, Herne Bay, Margate, Canterbury, Whitstable that they are completely ruining what once was the Garden of England. You only have to see the rubbish along the edge of all our roads to see what a tip our area has become. I say NO to this 2,000 house development.
