To: Consultations <Consultations@canterbury.gov.uk>

You don't often get email from [REDACTED] [Learn why this is important](#)

Please take this email communication as our strong objection to this proposal.

Firstly, current infrastructure cannot cope now with existing homes. Every time it rains it floods and more human waste pumped into our sea.

Drs and through recent experience, hospital over stretched and inadequate to deal with ever increasing population.

Roads are in a disgusting state, riddled with pot holes and when they are so called filled, that's a joke never done properly.

Traffic has now become ridiculous, there are more vehicles on the old Thanet Way than the new considering the new Thanet way was built to alleviate the old.

Chestfield rd has become a rat run . A peaceful quiet village has been ruined

We live [REDACTED] and the noise from boy racers is becoming more and more. Rubbish from McDonald's and KFC and Costa coffee shop is blighting the area .

With this proposal are you determined to destroy the whole area .

Finally I would like to know do any of you planners backing this development actually live in this area. The thought of this ridiculous proposal being beneficial to this area is nothing more than a giant mistake by the Council. Ask any local resident and your get the same answer NO.

We will be attending the meeting Wednesday to voice our strong objection again

Susan and John Mayell
