Seat Sir/Madam.

I wish to object against the above.

This is overkill. There are far too many issues, from drainage to infrastructure.

Lower Chestfield his threatened with storm floods and often the very area you are investigating is the most affected. The road system is already dangerous especially around the Sainsbury area. Sewage is leaked and with the huge increase I can only begin what the outcome might be.

Shortage of fresh water, bans on the water system is inevitable.

Lack of investment in the area, doctors, dentists and alike all stretched even at the moment. All in all a terrible proposition, why not build on estates around the old Shae Lawrie site??

See you Wednesday.24th April.

Many thanks,

Paul Creed
