My name is Mr Frank Davis.

I am sending this email to vehemently object to the proposed development at Brooklands Farm for the following reasons:-

1. Overdevelopment of the area.
2. Flooding issues in the surrounding area, Southstreet and Chestfield.
3. Roads will not be able to accommodate the increase in traffic.
4. Increase in demand for water. (Already we have hosepipe bans in mild summers).
5. Lack of doctors for the increase in population.
6. Wrong usage of needed farmland.
7. Lack of infrastructure ie. sewage, rainwater runoff which is already being discharged into our rivers and seas along the coast in Tankerton.
8. Impact on human wellbeing:- overcrowding, noise pollution and visual pollution.
9. Negative impact on local wildlife and conservation.

I hope, but doubt it, that the planning dept will take the above considerations into account when deciding.

Regards Mr F Davis.
