We OBJECT to this development for the following reasons :-

1. The University says they need the money, not that the housing is needed. Any business that has hundreds of students every year at £10,000 each or more is badly managed or incompetent
2. The local population will grow to at least 4,000 from 1,700 or 135% increase. There will be at least 2,000 extra cars every day in the villages. Rough Common is a " Rat Run " already.
3. Canterbury does not have an A&E are expecting the QEQM to cope?. We don't think so!
4. Still trying to get a Park and Ride in Harbledown? When will you learn?
5. The City is dying, almost no shops, just tourists. We can't access Canterbury - We have no bus!!
6. Crab and Winkle is a beautiful green area as well as, according to Michael Portillo, the first railway ever in this country.

THE WHOLE SCHEME IS LUNARCY

Regards

Lynne and Tim
