Dear Planning Department,

I strongly object to the proposed development (W4) at Brooklands Farm.

This suburban sprawl will detract from the character of the town I have lived in for 35 years and remove enjoyment of that green space.

This is not infill of an unloved town with no character or history, this is a much loved town, increasingly popular with tourists, making the access to green space for locals increasingly important, as the centre becomes bursting with tourists, parked cars and traffic.

Look to limit the growth of airbnbs, change their rules about tax so the incentives are not so high. Consider a two child policy! Anything, but stop the destruction of our green land that we will never get back.

I am also concerned about increased traffic, and stress on the local NHS, which I work for, and did so all through covid.

From a personal view, my husband cycles through this area every day, and it is one of our regular walks, on land which will be completely destroyed.

Yours faithfully,

Helen Macdonald

Dear Planning Officers,

I strongly object to the proposed housing development at Blean, (Policy C12) which will destroy the character of the area and lead to dangerously raised levels of traffic and in my opinion unsustainable stresses on the local infrastructures of health and services. I work for the NHS at Kent & Canterbury hospital, and can see first hand the existing pressures.

Also I love the countryside there and love the church of St Cosmus and Damian in the Blean, which is on my families regular walk and cycle rides from Whitstable to Canterbury.

This is a huge loss of an important green amenity and a destruction of the integrity of the local community. Please think again.

Yours faithfully

Helen Macdonald
