I STRONGLY OBJECT TO POLICY W4 LAND AT BROOKLANDS FARM.

My reason for objecting to the proposed development of this land is numerous. However my main reasons are:

To protect the Greenland and its wild life and waterways. Our water ways are already spilling and are polluted. More! Really!

To save my town. Its infrastructure. Which clearly cannot cope at present. Is under huge threat of flooding from burst mains and sewerage already. This is without further additions! It has been common knowledge that the infrastructure of whitstable is already inadequate and antiquated.

Whitstable has expanded beyond its means already and further expansion totally eliminates its beauty and functionality. Doctors surgeries, veterinary outlets, schools, local emergency services.....None of these cope with the quantity at present. This will just exasperate their positions and situations will only get worst Public transport is already irregular and packed. Again this just adds to the torment.

The local highways do not manage to keep the roads in good repair at present and again adding another 3000+ cars to this just adds to the load.

Serious consideration is required and the people of whitstable and surrounding areas should be heard and listened too.

To even consider this proposal is ridiculous.
