I OBJECT TO DEVELOPMENT ON BROOKLANDS FARM

I think it is wrong to develop on agricultural land, because:-

We need to grow more food in this country and not rely on food being imported from abroad thereby saving fuel and the environment.

Many young people want to be farmers and are currently looking for land to do this.

I believe the loss of wildlife would also be a bad move.

I have lived in Whitstable for over thirty years and worry about getting appointments at the doctors surgeries and dentists as there is a shortage of doctors and this is already a difficult situation.

The sewage situation is bad now and even with the improvements being currently made I think it will be an even worse problem.

This would also create more traffic and the roads locally are already very busy and this in turn would create more pollution.

We already get flooding in this area and think this would also cause even more.

From Mrs J H Parsons
