I OBJECT Strongly to your plans to build 1,400 more homes in what is almost my back garden, I live at [REDACTED], which is on the corner of [REDACTED] I beg you PLEASE, listen to what the local people are saying. We are meant to live in the Garden of England, but it is being turned into a concrete jungle, or a patio as some would say! There has been soooo much building going on in our area, that isn't finished or sold, we do NOT need any more. We can not take our children into the sea because of the amount of sewage already, so how on earth are we going to cope with more?? It is Not being dealt with! We have soo many hosepipe bans when we have a little sunshine, where is that water going to come from for more homes? It doesn't matter when you tell us there won't be that many more cars on the roads, because there will be more buses & more cycle paths, people will still want to drive their own cars when & where they want, if they pay road tax, it's their right, so much more pollution. Local people are already struggling to get appointments to see Doctors & Dentists, how do expect them to cope with more families, & more & more?! The main reason for my OBJECTIONS is the loss of more countryside, the loss of space for wildlife to flourish, not for myself, but for my Grandchildren & their generation, & hopefully those to follow, you take that green away from them, they will never get it back! I beg you PLEASE,PLEASE think about the affect this will have on people's mental health. [REDACTED]

I truly hope you take my worries seriously... I OBJECT!!

Yours faithfully,
Mrs Natalie Miles
