I object to the housing development on Brooklands farm. There are too many empty properties in this country that could be used for housing. This is conjoined to one of our most ancient woodland in Britain. Instead of healthy oxygenated air this area will produce more pollution in sewage and cars. I am affected by the continual sewage overflowing around the Tankerton area, I can no longer swim safely in the sea. I have to book a month in advance to see my Dr, this is only going to become worse. Cycling to and from work in Canterbury on the Crab and Winkle line has always helped me to destress from life/job, now I will be cycling through two housing estates.

Please save out beautiful, health giving countryside from destruction.

Yours sincerely

Helene Williams
