To whom it may concern, I am writing to object to the development of Brooklands farm due to the effect it may have on my everyday life. For example, because of the increased amount of households there will be more cars therefore making an extra 6440 metric tonnes of CO2 per year! In addition to this, because of the increase in houses, the amount of sewage entering the sea will change drastically as the council are already creating another sewage pipe. Like many people, I enjoy taking a short walk in nature but if the Brooklands farm development goes on we will lose many acres of beautiful wildlife.

So, I OBJECT to save the many things that this community cherishes.
