Re chapter 2 Policy c12

Michael Neale

My [REDACTED] would change from a rural situation to a clearly urban one, decreasing its value and desirability with an undoubted increase in road traffic that is at the moment barely sustainable. The loss of agricultural land would be the major factor contributing to the whole change if the area, resulting in the loss of an extremely diverse wildlife system and reduction of valuable food production. The church of Saint Cosmos and Saint Damian is a valuable heritage asset that sits beautifully on the ancient Salt Road, amongst hedgerows and countryside with its well noted Skylarks and a diverse range of wildlife, to completely change this would be sacrilege and remove the pleasure that this provides many people.
