I am objecting to the inclusion of the Bread and cheese field as a site for housing development I am a resident resident of Westbere for over [REDACTED] years

I believe the A28 is already struggling to cope with volume of traffic coming through due to all the local developments that have already been built along it ,and it is becoming increasingly dangerous esp at the top junctions by spires school

The loss of hedgerows and woodland that will be ripped out to make way for any development would be tragic we have lost so much in the area already and there must be "green corridors R5" for the wildlife and biodiversity

The ACRA report that Canterbury city council have grossly over stated the population growth for the area therefore the demand for more houses .The bread and cheese field is not needed

The field is of significant historical importance to the village of Westbere ,with a charitable history that can be traced back over 300years

Lack of Doctors appointments dentists ,low job opportunities in the area already in adequate for the existing population which another 150 houses will add too

Yours sincerely

Mrs Kym Moyes
