Dear Canterbury Council Team,

I live in Whitstable and I am kindly requesting that you Stop the Brookland Farm Development. I OBJECT to this development. The infrastructure in Whitstable is currently overstretched. There's sewage being dumped in the sea. Furthermore, I would rather see parts of the city developed that are currently out of use or in need of repair than see more countryside be developed for housing. Please look for other ways to build up the community and Stop the Brooklands Farm Development. We do not need further loss of wildlife and agriculture land. We need you to invest in fixing our current infrastructure. Please start with cleaning up the sea.

Respectfully,
Amanda Huddleson
Concerned Whitstable Resident
