We strongly oppose the planning proposal W4(Brooklands Farm).

We live in [REDACTED] Whitstable and use the Old Thanet Way on a daily basis. Over the years the volume of traffic has increased and is now becoming far too busy for the standard of road. This is mainly due to the enormous amount of building which has happened over the last ten years.

We would definitely need traffic lights or another roundabout at the Church St junction.

We worry about the effect of so many more dwellings will have on sewage, education, healthcare ,road safety in and feel the council is not addressing these serious needs before allowing more dwellings to be built.

Losing so much more green space and farmland will alter the whole concept of living in a close community and making the Whitstable area more like a city instead of a seaside town.

Can we really afford to lose our farm land? Where is our food going to be grown? Do we really need a larger population in this area? Where are all these newcomers going to find work?

We hope this application will be refused permanently

Andrew and Jean Martin
