I am writing to raise my objections to the building of a large number of property on Brooklands farm. The increase in traffic will be astronomical, and detrimental to the environment. Added to this the sewage system is already inadequate with constant realised into the sea. I currently live in south street, if this development goes ahead then around 2000 new property's will have been built within a mile radius of my house Within the last year and a half. We cannot get a doctors appointment, A&E are bursting at the seams and the wait times are already completely unacceptable without another 1400 new house in the area. I hope that the views of local residents will be carefully considered before a final decision is made. Thank you for taking the time to read my objections Tarina Dean Sent from my iPhone
