Policy C12

To whom it may concern
In reference to policy C12

The proposed building of 2000 new homes in the Blean area I would like to object to this in the strongest form possible by this email.

Where I can appreciate new homes are required, the logistics of this project does not make sense on so many levels. I have lived in the Rough common area since 1978 and have seen it's roads over time change from being a quiet rural area to a busy congested rat race where speed limits are ignored and pressure & emissions on the roads are at breaking point. Adding potentially 2000 + more cars onto our roads would be more or less a complete suffocation. I would recommend someone pay a visit to Rough Common Road in the morning where you will see the overcrowding of this small narrow village .

Another point I wish make is to protect the heritage of the land where this developement will be build , and the wildlife that inhibits the area will be destroyed forever

My name is
Damian Ashton
