Subject: I object - Brooklands Farm section - Chapter 3 policy W4

I object to Brooklands Farm Development based on:

- More sewage in the sea - the infrastructure can't cope with the current housing and there are regular spills of sewage into the sea.
- Loss of wildlife and countryside in Whitstable - there is so much building going on currently and Whitstable is going to get lost as the town is surrounded by more and more housing.
- The roads can't cope with the current traffic - there are potholes everywhere on both main and side roads and these aren't being repaired now so these will only get worse with more traffic due to housing.
- There is only one exit off the A299 to Whitstable which is very busy now leading to pollution in the surrounding area. This will only get worse with increase of cars due to the current and planned building projects.
