I wish to lodge my objection to the Brookland Farm Development

1. it is an area of floodplane known well to those who live locally - it is unfair and therefore build and sell houses to people who do not know this.

it will create flood runoff to those dwellings in the vicinity once the area is developed

2. The thanet way is not sufficient to cope with the excess traffic it will create
3. at the local consultation meeting a GP voiced that there is currently insufficient infrastructure to cope with a large influx of people
4. as someone who uses public transport it generally adds an hour- an hour and a half to me journey to travel by bus than to drive. Charging increased parking to encourage use of a public transport system you have no control over is nonsensical.
5. we cannot cope with the sewage we already generate never mind 4000 more households
6. local people do not need 4000 more houses - they will simply be sold to those coming from London because largely they are the ones who will afford them.

I wish to lodge my objection to The Blean Development  
because of ancient woodland destruction  
leigh Carter-Sjaw
