To whom it may concern:-

I STRONGLY OBJECT due to the following reasons-

- Overdevelopment in the area - 3 current new building developments, and the impact from them has not been seen yet!
- Flooding issues - It floods regularly at the bottom on South Street, but this will be worst without the fields.
- Insufficient Infrastructure.
- Increase in sewage - our current system is already beyond capacity and overflowing into the sea and rivers.
- High pollutions.
- Huge increase in traffic so more pollution and more damage to our already pot hole ridden roads.
- Higher demand on our already struggling healthcare (Doctors, Hospitals, Dentists). 40 minutes to get a urgent prescription from the pharmacist, how long will we have to wait, when the other 3 developments are occupied and if this one goes ahead god knows!
- Increase to the already overloaded local water supply.
- Safeguard our valuable resources (Farmland).
- Impact on human wellbeing: light, traffic, noise and visual pollution.
- Negative impact on biodiversity and nature conservation.
- Struggling support in KCC for children with special needs already - this will only impact more
- Stop AirB&B's as too many in the town, and ensure housing is available.
- My son who is 10, said Whitstable is becoming like London with all the traffic and no green areas.
- Support farmers more to ensure that they do not need to sell off their land

Please listen to the residents, as Whitstable is becoming too over developed.

Kind Regards
Leigh Barman
