I here by strongly object to the development of Brooklands Farm.

- over population for the area, at least doubling the size of a full town.
- flooding caused by reduced effectively flood plain for the location and down stream along the line of the Brook.
- Destruction of an area of 'fresh air lungs ' between the city of Canterbury and town of Whitstable.
- additional pollution from vehicles, general increase in waste.
- No additional provision for sewage in an area already struggling and destroying the coastal industry of fisheries and tourism.
- Even if a new medical centre is included staffing this and obtaining appointments is most likely a dead cause.
- The destruction of habitat for animals and birds.
- The destruction of farmland at a time when the UK needs to be more self sufficient.
- The destruction of ancient protected woodland.
- The lost of a community feel when a town becomes overwhelmed with property.
- The building of property which can not be purchased by locals but by others wanting to make money.

I STRONGLY OBJECT

Yous sincerely

Mrs Jean Burton
