I object to this development.

- 1) The land is farmland, which is needed to provide food for people to eat.
- 2) It is an area of natural beauty. It is the home to flora and fauna unique to the area.
- 3) I do not believe that we need these houses. There are far too many houses in Canterbury district which are empty most of the time, or rented out as AirB&B properties. In my road there are several. The house next door is empty about 50 weeks of the year.
- 4) I feel that the only people to gain are the developers, who will gain financially.
- 5) In my experience of driving to Canterbury, the roads are already unable to cope.
- 6) Sewage facilities are inadequate already, and placing a new one behind houses is wrong.
- 7) Wildlife and nature should be valued highly. An „opportunity“ for a wildlife corridor is too vague and anyway, wildlife doesn't obey man-imposed regulations.
