I object to policy W4 Brooklands farm

My reasons are as follows

1, massive increased pressure on an already overstretched local health system.

2, Increased traffic and pollution on already badly maintained road systems

3, More houses, mean more people so less school places available.

4, excess surface water causing flooding as has previously been experienced due to other recent new developments in the area.

5, more pollution in our sea due to more sewage and a system that cannot cope with the present output

6, Increased pressure on freshwater demands leading to more hosepipe restrictions.

7, A massive loss of countryside impacting wildlife.

8, A huge loss in the food production chain, with the loss of more farmland

From-
Mrs Debra Marman
