Dear Sir/Madam

This is to strongly object to the proposed housing development of Brooklands farm for the following.

I object because the infrastructure of this area cannot accommodate a housing development of this size. I object to such a huge loss of agricultural land and green spaces, which will be lost for ever.

I object to the inevitable destruction of the wonderful biodiversity that we have in this area which will also be lost forever. Green spaces are vital for people's health and well being.

I object to the noise and pollution and litter this housing estate will bring to the countryside, blighting residents lives. I object to the strain 1400 more houses will put on the already stretched health service, it is now impossible to find a dentist anywhere.

I object to the strain that will be put on our narrow, badly repaired roads that are already grid locked and the resultant pollution that will inevitably follow.

This housing development will destroy the essence and character of Whitstable forever.

Hoping you will take account of the above deeply felt concerns.

Mr F Trigg
