I am emailing to object to the development of Brooklands Farm.
This will have an adverse impact to the whole of the surrounding area.
The extra cars alone will feed onto roads that are already at maximum capacity and beyond.
More houses means more flooding and more sewage going into an already broken water system so yet more sewage in the sea. Plus more hosepipe bans. SE Water are already threatening these for this summer so how can you possibly let this development go forward..
It's hard enough to get a doctor's appointment or join an NHS dentist, this massive development will just add to this huge problem.
The loss of agricultural land takes away necessary food plus the loss of wildlife habitats.
Are you just out to break us all?
If this development is allowed to go ahead it is nothing short of criminal.
I strongly object to this development.
Please think again.
Sheila Wyver
