I strongly object to policy W4 Land at Brooklands Farm. The reasons follow :

We are surrounded on all sides by the developments with no thought for schools, doctors surgeries, dentists, no infrastructure to handle an extra 5,000 cars/people.

The Brooklands farm floods when we have bad weather excess sewage which is already a problem being dumped into the sea at Tankerton.

Air and noise pollution.

No thought for green areas

No thought for the demographically retired population who live near the development and the chaos this will cause for them

Working farm should be kept as a working farm but development disrupts this rural area, wildlife habitats and biodiversity

No thought for dog walkers and safe walking places

Would like to see the planning committee reaction to development totalling 8-10,000 new houses in the areas where they live. Would like to see how they would feel.

Yours sincerely,

Patrick Foley
