Dear Sir/Madame

I am writing to express my objection to the proposed plans to build 2000 new homes in the Blean area. This development in question if it goes ahead will affect the everyday living of the joining villages. The roads are already at breaking point and simply will not accommodate an influx of extra traffic merging into our streets. Canterbury prides itself on its heritage and history & the crab & winkle way is an important representation of Kent's rural history. I have x2 young children soon to start Blean school & I think the plans to demolish and relocate it will ruin its history, character and outstanding reputation as a local village icon and setting. My house is situated on the [REDACTED] not set back at all, and I'm extremely concerned that the increased traffic will impact my house, in terms of its condition, longevity, increased noise and pollution and the safety of my two young children with whom I have to cross the road to reach my car. Speed restrictions have never been taken seriously on Rough Common Road there has been a tragic history connected to this which could have been avoided if drivers were aware of a consequence if they didn't stick to the 30 mph limit. Therefore highlighting my point that allowing this narrow street to become a major through road will be an utter.

Please hear the voice of the people that live in the area.

Kind regards

Michelle Bartlett
