I object strongly to this development being built on the above site.

We have so much building going on already in the area and another 1400 houses will make matters worse such as: more traffic, already heavy, pollution Whitstable is always so busy, more sewage, which has occurred recently. More problems with health care, loss of our green spaces, there so many more reasons, we have hosepipe bans during the summer, what happens if the supply of water to all properties is in such a demand? Is there a plan for a reservoir in this area for the extra water that will be needed?

Mrs Barbara Williams
