Hello,

I object to this development. I live in a road flooded by sewage about fifteen years ago. Our back gardens were filthy. Crops were wasted. I don't believe enough significant work has, or will be done to manage further development such as this. Where will it all go? The surface road water from sewers already pollutes the sea.

This is a beautiful area, with sea, countryside and urban areas. I do not believe that there is a need to destroy what we have, and I suspect the only people to gain will be the developers.

D Wood
