To Whom it may concern

I would like to object to the proposed development at Brooklands Farm for the following reasons:

Swalecliffe Sewerage is already over capacity and regularly discharges into the sea, more house will make this much worse.

Traffic in Whitstable, Swalecliffe, Chestfield and the surrounding areas is intolerable most of the time as it stands. There is not the road infrastructure in place to cope with the current levels of traffic let alone any more. In addition to which the added pollution is unacceptable.

Health care in the area is already oversubscribed and it is exceptionally difficult to get an appointment now without any more people added to the catchment area.

The loss of green space and the impact to the local wildlife such a development would have to the area is morally wrong.

I would conclude in saying that any perceived benefits of this development, would be massively outweighed by the detrimental effects it would have and so should be scrapped.

Kindest Regards

Karen
