

Policy R7 + R8

2nd May 2024

I had problems accessing the correct council site but would like my thoughts submitted. Thank you.

350 new homes will ^{probably} mean a minimum of 350 more cars - potentially more with 2 car families - using Littlebourne hill. The route from Littlebourne into Coatesbury is already congested at peak times which causes tail backs and the problems of stationary, idling vehicles in the High Street. Local residents will have to suffer the nuisance and resulting pollution of a further massive increase in road traffic.

Littlebourne Surgery is already struggling to serve the local population. An appointment to speak to a doctor or medical practitioner at Littlebourne or one of the related health centres always takes a minimum of two weeks. This is unacceptable now without the influx of many hundreds of new patients.
