Planning Officer  
Canterbury City Council

Dear Sir or Madam,

R7 + R8

Local Plan 2040

I wish to add my objection to this plan, and should be grateful if you would register it accordingly.

The Littlebourne Parish Council's response to the draft Local Plan is included with this letter, so that I may endorse every one of its eleven points.

In particular I would underline my dismay that Canterbury City Council should think it acceptable, let alone promote it, that so much arable and beautiful land round the village is to be destroyed when there are many other less beautiful and valuable areas that could be used instead.

Littlebourne has already taken its share of new building and its infrastructure can accommodate no more, in particular its road. I cannot conceive how the Council thinks that the existing road to Littlebourne can take hundreds more cars.

And I am disappointed that its Planning Department has so little regard for the survival in Littlebourne of one of Kent's lovely villages that it is considering this grossly inappropriate plan.

I would ask you please to ensure that this plan is refused not only for now but for the future as well. It should not be re-presented in a couple of years' time.

Yours sincerely

Joan Hughes
