Dear Sir,

Brooklands Farm, Whitstable

- I object to this planning proposal most strongly.
- the infrastructure cannot support this amount of new buildings
 - nationwide we should be growing more food or using farm land for cattle, sheep, etc. not concreting over farm land.
 - where are the extra doctors, dentists, schools to cater for this many more people?
 - local roads are often gridlocked without that many extra vehicles and we don't need any more air pollution.
 - the sea is already unsafe to swim in more sewage would be a disaster for the local economy.

I urge you to reject this application.

Yours faithfully

SARAH POWT
