Dear Sirs,

BROOKLANDS FARM DEVELOPMENT

I wish to OBJECT to proposed development of the Brooklands Farm site in Whitstable for the following reasons:

Additional housing will be detrimental to an already inadequate sewage system, meaning more sewage being discharged into the sea. This is already proving to be harmful to sea life and a huge risk to public health. With regard to fresh water supply, it will put extra burden on the system and result in more pressure on an already neglected supply pipework. This in itself will cause flooding and road closures for repairs.

More traffic on our roads. It is already far more difficult and time consuming to drive in and around the area. More pollution.

There will be more strain on our local health system where it is already difficult, if not impossible, see a GP or an NHS dentist and it will mean far extra a burden on our nearest hospitals.

It will deprive Whitstable of valued countryside and prove harmful to wildlife. In general it will deprive us of to our right to fresh open spaces, to breath fresh air and will be detrimental to our well-being.

To sum it up - I OBJECT to this proposed development.

Yours sincerely,
Frances Rickson
