Dear Sirs

I am writing to object to the Brooklands Farm Development.

I object on a number of things which directly or indirectly affect me and our environment.

- I have a beach hut which last year we could barely use due to the pollution in our sea. I am extremely worried about additional sewage in our sea and therefore object to this development.
- I know of so many people that can't get a dental appointment, I therefore object to more people living in our area and making that even worse! I would hope that our very efficient medical practice is able to deal with the extra flow of people, but I can imagine that will not be fully possible.
- I object to the demands that it will put on our schools, many of which are already over subscribed.
- I object to the loss of our agricultural land around Whitstable, and the impact that this has on our environment, wildlife, and food production.
- I object to the additional traffic; I already have a nightmare drive into Canterbury most days, due to traffic, potholes, road works and sheer volume of cars.
- I object to the additional traffic in the town, it is already impossible to park anywhere in the town at the weekends and therefore that affects local tradesmen, as many people opt to shop out of the town due to not being able to access the town due to volume of traffic and lack of parking.

I can only assume that additional housing will put a bigger burden on our water supply and create more flood zones due to more concrete and no sufficient drainage, I therefore object on these grounds as well.

Kind Regards,

Lesley Foster
