I would like to register my objection to the proposed Brooklands Farm development (policy W4).

Although I am aware the area needs more housing and agree a new school would also be of benefit, I oppose this development due to the already inadequate sewage pipe network and treatment works. We regularly flush sewage into the sea here and this development will only make the problem worse - more house, more people, more sewage.

Also, the local road network barely copes at commuter and school times as it is, and thus would only get worse.

Until a further treatment works and more sewage storage tanks and built and the road network is vastly improved, and any potential flooding risk is assessed and addressed this area cannot be considered for a huge housing development.

Please log my objection,  
Regards,

Mrs Maria codd
