Hi

As a Canterbury resident since [REDACTED] I'd like to write in support of the plan to build more houses locally, in particular in the Blean area, but only if there is proper consideration given to infrastructure (eg roads and sewers) So we need a big improvement on the farcical drain situation around the Thannington area development) Also we need a decent amount of off road parking built into the plans. Families need cars to live in the 21st century. Canterbury housing has suffered from under regulated profiteering landlords and increasing the supply to satisfy the demand is needed to help reduce their stranglehold locally.

Kind regards  
John Allen
