Dear Sir/madam,

I object to this development wholeheartedly, for many different reasons. The main one being the lack of infrastructure that is almost never given any thought in these proposals. The Estuary View is a wonderful resource for the town and it is becoming increasingly difficult trying to get any type of medical appointment, whether it be doctors, hospital or dentists, so I feel these services would be suffocated and come under extreme pressure to cope with the overload of people in the area. Water would also be another red flag. The whole of Whitstable is underlain with impermeable London Clay and susceptible to flooding. With climate changing this would be a catastrophe in the making should we experience severe rainfall. The rivers would not cope with the excess surface water and the lower parts of Whitstable would be flooded. These are my main reasons, but my other concerns would also be sewage, traffic, schools that would severely have an impact on the area.

Regards,

Alison Arnold
