Good morning

This was the original comments in the first email Mr Higinbotham is referring to?

Thank you

Planning services

Page: Your message

- Your first name Keith
- Your last name Higinbotham
- Your email [REDACTED]
- Your address [REDACTED]
- Your message I am contacting you about the out of control building projects in and around Whitstable, both ongoing and proposed. Don't you realise that we are all struggling to get doctors appointments, that waste water and sewage is already being pumped into the sea at a steady rate. This is whether or not it is raining. It is a struggle to find school places and the roads are becoming increasingly busy and dangerous. Parking is becoming either very expensive or impossible. How on earth can we stand expansion at this rate? Already the few green spaces people have locally are diminishing with ongoing building and plans to build even more on the few sites left. People are angry and worried. I welcome any constructive comments you may have about how this is sustainable or fair to an already overcrowded community.
