I object to the proposed Brooklands Farm development for the following reasons.

- I am concerned about the impact on the amount of traffic on an already congested Road network in the town.
- the area is an area of natural beauty and this will destroy the habitat for animals and residents who enjoy the crab and winkle way.
- the proposed cycling route and bus routes are completely inadequate.
- the pressure on local services will be immense given the amount of extra houses already being built in the area with no measure of their impact on the community.
