Afternoon,

I object to this development for the following reasons

- Loss of green landscape forever, swallowed up and concreted over
- Loss of yet more agricultural farmland
- Years of building work, noise, traffic and heavy goods vehicles
- Increase in sewage that our current system can't cope with
- More sewage from the huge development pumped into the sea
- Increased flooding with drainage issues already being a problem
- Higher demand for water, already in short supply
- Increases in pollution from traffic and noise and light
- Thousands of extra vehicles on surrounding roads travelling but also where will they park with sparse provision with any new development.

Regards

Claire
