To whom it may concern,

Personally I have some real concerns about these Brooklands Farm plans. Here's a few things to think about:

Losing Our Green Oasis: The Brooklands Farm plans threaten the green haven that so many locals rely on for daily nature escapes. Instead of cramming development in one spot, let's spread it out and create easier access to green space for everyone.

Strained Services, Strained Lives: Our doctors, dentists, and hospitals are at their breaking point. Adding more residents will only exacerbate the problem. You need to put this in the context of better facilities.

Sewage Woes Threaten Our Town: The Swalecliffe sewage plant is already overflowing, dumping raw sewage into the sea. This is a health hazard and a stain on Whitstable's renowned seafood industry. How can this possibly improve our lives?

Traffic Gridlock Ahead: The roads around Brooklands Farm are already congested. Imagine the chaos with more development! South Street, Chestfield Road, Radfall Hill - it'll be a traffic nightmare, crippling travel to Canterbury and beyond.

Flooding Fears Are Real: These fields act as a natural sponge, absorbing rainwater and preventing floods downstream on the Swalecliffe Brook. Building on them is a recipe for disaster. I've witnessed this firsthand with my own home.

Trust you will use common sense, so many alternatives that would be more beneficial.

Your day is going to be spectacular, make sure ...
