Subject: DAP and a little bit more

--Email From External Account--

Annabelle thank you for dealing with all this on Tuesday

There's one further very major point that no one thought of and it's of immense import I believe

The CCC Plan, thought, to close down City centre car parks in the period under review out to 2040 refers

Handicapped people, usually with Blue Badges, and with mobility scooters whatever that they carry in their vehicles and need to take out to then use to get around

These mobility scooters just won't I'm sure, transport on buses and precludes those drivers parking in Park and Ride if the Users are to get into the City centre

Disabled Users NEED to be able to park in the City centre to also help bring footfall for the commercial survival of those shops and businesses therein

Disabled on Mobility Scooters might be a tiny percentage of car park users BUT not enabling them to park in the City centre areas STOPS them from their City centre needs and spending and enabling those businesses to pay their Business Rates, Rents, Wages whatever

Please could you make this personal view of mine, and as a DAP member, to whomsoever it should be made in this Consultation Process

I think we didn't focus on nor mention this at our DAP discussions Tuesday

Thank you so much Annabelle and

Best wishes

Malcolm
