I object to Policy W4 Brooklands Farm. I am a resident local to the area and I am objecting to this as I believe it will cause more harm than it will good. The NHS services in the area are already dreadful and completely overwhelmed with the amount of patients the area already has, adding another 3000+ people into the mix will do no help at all to this. Not only this but the sewage system in Swalecliffe and surrounding areas has already been overworked and is unable to cope with the existing demand, so again adding another 3000+ people into the community will do no help to the situation. Another reason why I object to Policy W4 Brooklands Farm is that this development is simply just not sustainable. There is already many new builds in and around this area which have destroyed many habitats and already added to the complete overload the community faces each day. There is many other reasons I object to Policy W4 Brooklands Farm, these are my main reason which are going to cause the biggest impact on the community.
