Dear Sirs,

With regard to the Brooklands Farm housing project there are multiple reasons why this should not take place. I OBJECT

1. We already have massive issues with our waste water and raw sewage spillages into the sea.
2. The roads and infrastructure here is not able to cope with the traffic here is it is. We will incur more pollution also as a result of this.
3. Doctors and dentists are already stretched to the limit in Chestfield.
4. The danger of flooding will be increase even more, we already have issues with the Grasmere Pasture housing estate, there are hundreds of new houses on the Thanet Way, too.
5. We already have water shortages in the ever increasing climate change
6. All our wildlife habitats are being systematically destroyed and natural drainage is prevented by concreting over much grassland.
7. We are supposed to be the Garden of England here in Kent, how are we going to produce fruit and grain to help sustain the UK instead of relying on ever increasing imports contributing an ever increasing carbon footprint?

I STRONGLY OBJECT

Regards

Peter Siebenand
